

Helping Adults and Teens Get Life Back on Track

2014 Community Division Annual Report July 1, 2013 – June 30, 2014

Gateway Foundation Fiscal Year 2014 Milestones

July 2013

Dr. John Larson joined Gateway as Corporate Medical Director to collaborate with physicians and ensure the evidence-based treatment therapies meet the highest standards in addiction treatment and behavioral health care.

September 2013

All Gateway Community Division centers received a three year accreditation from The Joint Commission. One surveyor commented that Gateway was a "high reliability organization" meaning the organization consistently delivers high quality treatment and demonstrates sound processes. September also marked the opening of a new and expanded outpatient center in Swansea, IL. The new location offers convenient treatment to those throughout the St. Louis Metro East area.

October 2013

In honor of National Substance Abuse Prevention Month, Gateway hosted free training seminars and provided CEUs for hundreds of professionals that provided expert insight into the heroin and prescription opioid epidemic.

November 2013

Gateway debuts its first television commercial on stations throughout Illinois and in the St. Louis metro area.

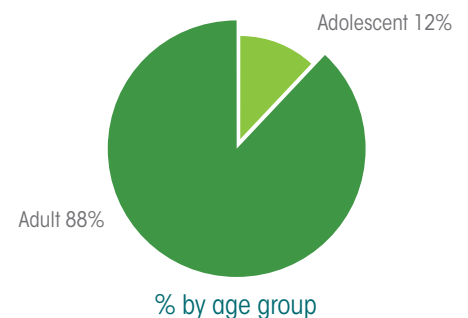

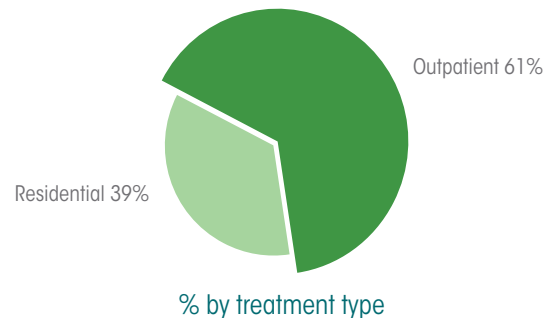

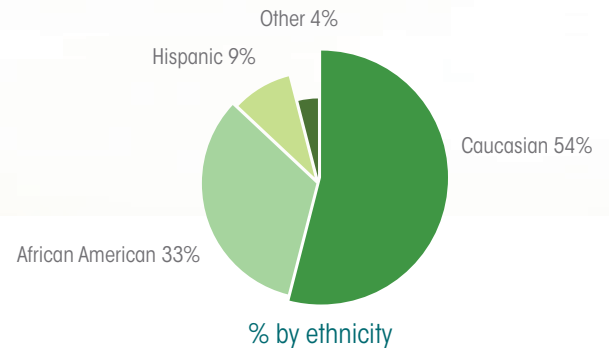

March 2014

Chicago West and Lake Villa were selected to participate in a Department of Alcohol & Substance Abuse project that sought to reduce the use of inpatient detoxification services via the use of Vivitrol®. Vivitrol can help individuals abstain from alcohol and/or opiates as part of their ongoing recovery.

May 2014

Influential industry professionals throughout the Midwest attended Gateway workshops, and received complimentary CEU's to enhance their understanding of marijuana, effects on the brain, and current trends around legalization.
